This index to PUBLIC HEALTH REPORTS is divided into a subject index and an author index. The subject index has one or more entries for each item published. In addition to the subject headings, categorical headings include ABSTRACTS, COMMENTARY, COUNTERPOINT, DATA LINE, EDITORIALS, ENDPOINT, LETTERS TO THE EDITOR, PHS CHRONICLES, PUBLICATION ANNOUNCEMENTS, REVIEWS, AND VIEWPOINT. Brief reports (br) are drawn from NEWS & NOTES.

SUBJECT INDEX

ABUSE, PHYSICAL
two laws passed. er 4
UN agencies join against FGM/FC. br 6

ABUSE, SUBSTANCE
bridging the gap between science and practice: insight to researchers from practitioners. sl a 189
college-age drinking problems. v 52
community-based outreach HIV intervention for street-recruited drug users in Madras, India. sl a 58
deadliness of declining drug abuse. c 234
drug abuse treatment as AIDS prevention. sl a 97
drug abuse treatment success among needle exchange participants. sl a 129
effect of Maine's 0.05% legal blood alcohol level for drivers with DWI convictions. a 440
facilitating treatment entry among out-of-treatment injection drug users. sl a 116
feasibility of obtaining sexual risk and STD history in the context of a drinking drivers' program. a 341
fifteen years of research on preventing HIV infection among injecting drug users: what we have learned, what we have not learned, what we have done, what we have not done. sl a 182
fingerhut and cox reply. ltr 380
harnessing peer networks as an instrument for AIDS prevention: results from a peer-driven intervention. sl a 42
HIV prevention among injecting drug users: responses in developing and transitional countries. sl a 170
HIV prevention with drug-using populations—current status and future prospects: introduction and overview. sl a 4
in brief—drug addiction. br 108
methadone treatment protects against HIV infection: two decades of experience in the Bronx, New York City. sl a 107
the network approach and interventions to prevent HIV among injection drug users. sl a 140
outreach in natural settings: the use of peer leaders for HIV prevention among injecting drug users' networks. sl a 151
the outreach-assisted model of partner notification with IDUs. sl a 160
outreach-based HIV prevention for injecting drug users: a review of published outcome data. sl a 19
peer-delivered interventions reduce HIV risk behavior among out-of-treatment drug users. sl a 31
pharmacy access to syringes among injecting drug users: follow-up findings from Hartford, Connecticut. sl a 81
poison centers' perspective. ltr 379
poisoning mortality 1985–1995. a 218
preface. sl c 1
qualitative assessment of training programs for alcohol servers and establishment managers. a 162
the role of needle exchange programs in HIV prevention. sl a 75
satellite exchange in the Baltimore needle exchange program. sl a 90
screening for pregnancy and contraceptive use among women admitted to a Denver detoxification center. a 336
SAMHSA funds states' substance abuse prevention efforts. br 108
SAMHSA studies substance abuse among women. br 13
syringe exchange programs: lowering the transmission of syringe-born diseases and beyond. sl a 67

what we have learned from research about the prevention of HIV transmission among drug users. sI a 194

ALASKA NATIVE
integrating American Indians and Alaska Natives into the body politic. chr 365

ALCOHOL
college-age drinking problems. v 52
effect of Maine's 0.05% legal blood alcohol level for drivers with DWI convictions. a 440
feasibility of obtaining sexual risk and STD history in the context of a drinking drivers' program. a 341
qualitative assessment of training programs for alcohol servers and establishment managers. a 162

AMERICAN PUBLIC HEALTH ASSOCIATION (APHA)
APHA launches innovative heatlh projects network. br 11

ANIMAL BITES
the cost of rabies postexposure prophylaxis: one state's experience. a 247
defining the rabies problem. c 245
dog and cat bites: epidemiologic analyses suggest different

prevention strategies. a 252
in brief—dog bites. br 108
potential rabies exposure in a Virginia county. a 258

ASTHMA
asthma figure. er 4
the indoor air we breathe: a public health problem for the '90s. a 398

BLACKS (see also MINORITIES)
the effect of using "race of child" instead of "race of mother" on the black-white gap in infant mortality due to birth defects. a 263
ethnic health differences persist—causes are multiple. br 12

BOOK REVIEW
the environmental origins of cancer. rev 281
a most uncivil action. rev 87
should we buy a universal health measure? rev 369

CANCER
adverse health effects of electromagnetic fields still being discussed. br 387
the environmental origins of cancer. rev 281
epidemiology: second-rate science? a 312
a most uncivil action. rev 87
the reawakening of national concern about silicosis. a 302
smoking and a surgeon general. ltr 287
the uses and misuses of skepticism: epidemiology and its critics. c 321

CENTERS FOR DISEASE CONTROL AND PREVENTION (CDC)
APHA launches innovative health projects network. br 11
CDC's lead screening guidance: a systematic approach to more effective screening. ctr 47
credibility of information from official sources on HIV/AIDS transmission. a 465
critique of CDC's retreat from recommending universal lead screenings for children. v 38
hotline dispatches needle stick protocols. br 106
in brief—local boards of health. br 108
national computer network to combat foodborne illness. br 381
nonmedical health literature consolidated: www.chid.nih.gov. br 292

CHILDREN
AMA, Nemours launch kidshealth. br 10
asthma figure. er 4
the brain and child development: time for some critical thinking. a 388
CDC's lead screening guidance: a systematic approach to more effective screening. ctr 47
chicken pox vaccine coverage expands. br 195
children's health insurance. br 200
a comparative cost analysis of newborn screening for classic congenital adrenal hyperplasia in Texas. a 170
critique of CDC's retreat from recommending universal lead screenings for children. v 38
deficiencies in current childhood immunization indicators. a 527
DHHS, EPA fund children's environmental health research centers. br 486
Dr. Bruer replies. ltr 481
the effect of using "race of child" instead of "race of mother" on the black-white gap in infant mortality due to birth defects. a 263
estimated vaccination coverage using parental recall, vaccination cards, and medical records. a 521
food & drugs for kids. br 387
how many will it take? end inside back cover, Sept.–Oct.
hygienic practices and acute respiratory illness in family and group day care homes. a 544
in brief—dog bites. br 108
in brief—maternal and child health. br 109
millions of American children still uninsured and facing barriers to care. br 295
neuroscience and public policy. ltr 480
nutrition among homeless children. ltr 287
1% or less: a community-based nutrition campaign. a 410
optimal disease prevention using vaccination depends on a system. c 533
states must be held accountable for new health plans for children. br 383
the use of infrared ear thermometers in pediatric and family practice offices. a 268
toward more healthful dietary patterns—a matter of policy. c 420
vaccines under development could save up to eight million lives yearly. br 195
youth employment versus exploitive child labor. ltr 3

CHOLESTEROL
lipid screening in a managed care population. a 346
1% or less: a community-based nutrition campaign. a 410
toward more healthful dietary patterns—a matter of policy. c 420

CHRONIC FATIGUE SYNDROME
chronic fatigue syndrome continuing education credits online. br 9

COMMENTARY
an idea whose time has come. c 243

deadliness of declining drug abuse. c 234
defining the rabies problem. c 245
federal programs and Indian country: a time for reinvention. c 34
optimal disease prevention using vaccination depends on a system. c 533
preface. sI c 1
public health and the winds of change. c 160
a public health standard for screening managed care populations. c 351
public health versus civil liberties. c 334
surveillance of injuries. c 424
toward more healthful dietary patterns—a matter of policy. c 420
the uses and misuses of skepticism: epidemiology and its critics. c 321

COMMUNICABLE DISEASES (see INFECTIOUS DISEASE, HIV INFECTION, SEXUALLY TRANSMITTED DISEASES)

COMMUNITY HEALTH
a most uncivil action. rev 87
APHA launches innovative health projects network. br 11
Chicago report profiles big city health. br 5
community-based outreach HIV intervention for street-recruited drug users in Madras, India. sI a 58
community health guide being developed. br 106
following up on screening tests. ltr 100
models that work for grass roots solutions offering health care and economic benefits. br 487
1% or less: a community-based nutrition campaign. a 410
outcomes of recommendations for breast biopsies in women receiving mammograms from a county health van. a 71
toward more healthful dietary patterns—a matter of policy. c 420
the transformation of a local health department. a 152

CONFERENCES
upcoming conferences. 7, 109, 199, 295

CONTRACEPTION
screening for pregnancy and contraceptive use among women admitted to a Denver detoxification center. a 336

COSTS
a comparative cost analysis of newborn screening for classic congenital adrenal hyperplasia in Texas. a 170
the cost of rabies postexposure prophylaxis: one state's experience. a 247
health cost containment. what it will mean for workers and local economies. a 204
preparing for change. c 214
should we buy a universal health measure? rev 369
smoking estimate correction. ltr 191
state estimates of Medicaid expenditures attributable to cigarette smoking, fiscal year 1993. a 140
state estimates of total medical expenditures attributable to cigarette smoking, 1993. a 447

DATA BASES AND DATA FILES
AMA, Nemours launch kidshealth. br 10
chronic fatigue syndrome continuing education credits online. br 9
clinical practice guidelines wanted. br 292
in brief—*healthy people 2000 review*: br 108
nonmedical health literature consolidated: www.chid.nih.gov. br 292
